Administration - redistribution of the ranges in Kollegal Taluk proposals.

(F) Fy31-32 In G.O.No. 1026 Revenue, dated 3-7-25, (Please vide Commr's R.1505 Abk.dated 14-7-25) the formation of 2 Sub Inspectors' ranges in the Kollegal taluk, Bhavani circle, in place of an Asst.Inspector for the whole taluk was temporarily sanctioned. During my inspection of the ranges in July 1926, I observed the ranges had been badly divided. Kollegal was heavy, ran in a long and narrow - -- - configuration from north to south and Hanur was on the other hand light and unimportant. I invite attention to para 19 of my B.R.663/17.8-27 As the scheme was a --- temporary measure for 2 years from 1-8-25, it had to lie over for consideration till receipt of Commissioner's R.1890, Abk.dated 7-9-27. As the Sub Inspector Hanur range has at present very little to do by way of shop inspection and detection, as this range consists mostly of uninhabited hilly portions where there is little crime, and, as Kollegal is now heavy owing to its being coterminous with the Mysore Border which has to be carefully watched it is proposed to transfer 7 main villages and 4 arrack shops, 1 ganja shop and 2 toddy shops from Kollegal to Hanur and one village from Hanur to Kollegal to make the Sub Inspectors' charges as equal as possible. The narrow strip of the southern portion of the Kollegal range will be added to Hanur and a portion of the North western part of the

the present Hanur range will be transferred to Kollegal I enclose for perusal a detailed letter from the Inspector dated 16-11-27. The changes proposed are clearly embodied in the statement and map enclosed and the redistribution may kindly be sanctioned. There is no change in the menial staff of the ranges.

16/12/27

Copy to Inspr.Bhavani circle..

Copy of Bhavani Inspector's letter C.R.746/27 dated 16-11-27

Ref:- Your B.R. 805 dated 8-9-27

The two ranges Kollegal and Hanur as now constituted are now unevenly distributed in respect of shops, marking, and detection (crime) and the number of villages. Touching on these in view of a fair distribution of work, the following changes are proposed:

Area and population:- The whole taluk of Kollegal according to the latest survey is 1105 square miles in extent with a population of 95556 inhabitants. The two ranges as now constituted consist of 89 villages of which Kollegal range has got 46 villages with an area of 103896 acres 19 cents or nearly 162 2/3 square miles with a population of 65693 inhabitants whereas Hanur range has got 43 villages with 29663 residents. Comparatively the area comprising Hanur range is greater with less population and this is due to the fact that the geographical features of the ranges chiefly consists of forests. I recommend the transfer of No. 58 Sagram to Kollegal range from Hanur range and the transfer of village No. 41 Kongrahale, 43, Andipolyam, 45, Lekkanahalli, 84, Perungouvndanpoliem, 85, Aralikare. 86. Soochurm and 87, Bylore from Kollegal to Hanur. The above transfers will result in giving an area of 144 ¾ sq. miles with 29909 inhabitants to Kollegal range and 218½ Sq.miles with a population of 38297 to Hanur range.

2. Shops:- At present Kollegal range has 18 toddy shops, 11 arrack shops, 2 ganja shops and 1 opium shop and one arrack wholesale depot or 33 in all against 5 toddy shops, 6 arrack shops, one ganja 2 opium shops and one arrack wholesale depot in Hanur range. The shops in Hanur range are poorer in rentals the highest and the lowest rental for toddy shops being Rs.41/ and Rs.10/ and that for arrack Rs.26/ and 6/ respectively. I therefore submit that the shops which are nearer to Hanur and remote from Kollegal may with advantage be added to the former Statements of shops existing and proposed are enclosed. The statistics of rentals and consumption for the past 3 years are

3 years are also given. By the proposed change Kollegal range will have 16 toddy shops, arrack shops, one ganja ane opium shop and one arrack wholesale depot or 26 shops, while Hanur will include 7 toddy shops 10 arrack shops 2 ganja, 2 opium shops and one arrack wholesale depot or 22 shops. The marking centres of either of the ranges are not affected. Inspite of the above transfer the importance of the Kollegal range will not lessoned as the range borders Mysore territory requiring the best attention of the Sub Inspector in suppressing smuggling

3. Crime: The crime is more rife in Kollegal than in Hanur and the transfer of Lokkanahalli which is a centre for crime situated within 6 miles of Head quarters of Hanur range and about 16 miles from Kollegal will make the work in the direction of detection evenly distributed and easy.

4. The following enclosures are submitted for favour of perusal.

5. From the plan enclosed, it may be observed that officers in charge need not pass out of their range jurisdiction.

Kollegal taluk Redistribution of ranges

Please see the A.C's letter below. He proposes to transfer some villages between the Hanur & Kollegal ranges of the Kollegal taluk so as to equalise the work in the two ranges. Statistics of work at present & as proposed will be found at p 5 of the proposal does not seem necessary has been submitted in order to give some relief to the Kollegal & it may be accepted

1- The AC (Mr. Reuben) pointed out the necessity for a redistribution of the two ranges in his notes of inspection of the Bhavani in 1926 - Vide p 14 (I)

Sanction may be accorded
